# ROGER STEVE RUIZ

+18045392255    hi@rog.gr    http://write.rog.gr/    Richmond, VA & Remote

## PROFILE

I'm a self-taught web engineer with over five years of experience building & maintaining software, websites, interfaces, & products. I am passionate about the full-stack of software from User to Infrastructure and back again, e.g. documentation. I have worked on both private code and many open-source projects.

## EXPERIENCE

### INNOVATION SPECIALIST, GSA / TTS / 18F; WASHINGTON DC — 2015 – PRESENT

Full-stack software engineer maintaining federal open source projects such as *cloud.gov, vote.gov, standards.usa.gov,* and more . Working remotely with a nearly 70% distributed team. Engineering chapter Facilitator between engineering director, supervisors and fellow engineers working with five cohorts.

### FRONT-END ENGINEER, CO+LAB MULTIMEDIA; RICHMOND, VA — 2015 – 2015

Optimizing front-end workflows & deployments on a team of seven developers. Building WordPress themes & customized installations. Extending the core functionality of WordPress by creating custom-APIs for bidirectional communications between the client and server.

### SOFTWARE ENGINEER, CONDÉ NAST; NEW YORK, NY — 2013 – 2015

Building & maintaining a client-rendered video streaming website along with nine other engineers. Practicing SCRUM along with continuous integration & daily deployments to production. Worked closely with the vice president of product design & engineering. Working in a completely Rails 4 development environment. Working remotely four to five times per month.

### SENIOR DEVELOPER, ROKKAN; NEW YORK, NY — 2011 – 2013

Worked collaboratively with UI & UX designers to create and integrate templates for various clients. Involved in client & internal meetings. Lead developer on projects. Gave talks & trained coworkers on Git.

## SKILLS

Front-end (HTML, CSS, JS), Popular libraries & frameworks, Ruby, Python, Go, Rust, [No]SQL, Mac, Linux, SCM/Git, Automation, /r[egx]{2,}p?/i, Open Source, Continuous Integration, Continuous Delivery, Release management.
